

May Bank Holiday Cruise to Conyer
Saturday 26th, Sunday 27th
Monday 28th May

The tides are good for a weekend trip to Conyer not too early in the morning nor too late in the day.

The most important part of the cruise is arriving at Conyer Creek before high water. High water at Conyer is 11.13 hrs. on Saturday. To allow for hold ups at the bridge a passage time of 3 hours should be allowed from Queenborough. For those that choose to overnight at Queenborough it will mean a 08.13 start. For those leaving from MYC you need to be with us at Queenborough at 08.13. These timings will all depend on the Kingsferry Bridge opening times which will not be confirmed until Friday night. Whenever possible we will be let through with commercial traffic.

For the return leg high water at Conyer is 12.48 on Monday afternoon. Timings for the bridge will be confirmed on Sunday night.

Please let me know if you wish to overnight in Queenborough.

If you would like to join the cruiser class for this trip I will need;

Boat name

Owners name

Contact Number (mobile)

If intending to overnight at Queenborough Friday night. Yes/no

LOA

Beam

Draft

Keel type

All boats will be responsible for their own mooring fees at Conyer and Queenborough. Please let me know if you want to join us in The Ship for dinner on the Saturday Night. Please let me know ASAP as I am getting pressed for numbers from Conyer.
