After launching cradle/trailer left on site	YES <input type="checkbox"/> NO <input type="checkbox"/>

PTO

Please note:

- Boats not Winter Berthing at MYC must be removed within 14 days of coming ashore, after which time Winter Berthing charges will be levied.
- Boats shall not return to MYC more than 14 days before their launch date.
- This winter you must be prepared to have dates allocated to you, this is because we expect more boats to lay-up at MYC. We will try to accommodate your preferred dates but you must be prepared to accept a date given by the office to facilitate the logistics of this operation.
- Bookings will not be accepted without a launch date being given.
- A surcharge will be made and shall be paid in advance of launching if boats are not ready for launching on their allocated date.
- Electricity shall not be left connected to unattended boats, it is not provided for use of Fan Heater, Electric Kettles or Dehumidifiers, it will be disconnected from unattended boats and you may be denied its use in the future.
- Should a launch date be missed, for whatever reason, resulting in a move within the car park being required this will be charged at the current rate of a single travel hoist to/from car park.

I apply for Berthing at MYC and have a suitable serviced trolley/cradle for this purpose. I accept that I will be allocated a place in the car park or other suitable place on the MYC site by the Beach Master, Bosun or a Flag Officer of MYC.

I confirm that I have read and understand the instructions on this form and the accompanying sheet that was attached to this application.

Signed: _____ **Date:** _____

Medway Yacht Club
Arrangements for Winter Berthing
2021/2022

Please Keep This Page For Your Reference

Conditions of accepting your request:

- It is hoped that members that are retired will take up dates in the week (Monday to Friday), allowing members that are working or having to travel long distances to the club to use the few weekends that have good tides for this operation.
- Your winter berthing requirement will only be accepted on the club's movement form.
Your form will only be accepted if it contains dates for hauling out and launching - If it does not contain these two dates it will NOT be accepted and will be returned without being logged.
- **Both the Office and the Bosun have been instructed that they must not accept bookings unless the required form has been properly completed with all information required.**

Masts:

- **If you require your mast to be removed please speak to the Bosun before completing this form.** We can only carry out one mast removal per day, it is essential you discuss this before choosing a date. **Please tick the appropriate box on the form.**

Yacht Cradles and Trailers

- If it is your intention to leave your Cradle or Trailer on site during the summer months, please indicate this on the form. **Cradle/trailer must be clearly marked with boat or owner's name.**
- Cradles and Trailers should be checked before your hauling-out date, making sure that all pads and adjustment legs are able to be adjusted. Any hold-ups will be charged

Electricity Supply

- You should be aware that electric points are provided so that you can charge batteries and use power tools etc. they should not be used for large capacity items such as Fan Heaters, Electric Kettles, De-Humidifiers etc. Any boats left unattended with an electrical supply connected at the end of the day will be disconnected and you might be refused the facility in future. The above is in place to stop overloading of the circuits, which will trip out causing inconvenience to other members.

Insurance

- You are reminded that your boat should be properly insured when on a club mooring and ashore on club premises. Your insurance should also cover lifting and transport to your winter berth. You should also inform your insurers of your movement ashore and launching. At all times you should have adequate Public Liability Insurance.

**TO PRESERVE THE HOIST SLINGS, THE NEXT BOAT BEING LIFTED AND OUR CAR-PARK
BOATS SHOULD BE CLEANED BELOW THE WATER LINE BEFORE COMING ASHORE**

Dates you have booked:

Hauling Out Date: _____ 2021

Launching Date: _____ 2022
